## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small-arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

#### SUMMARY

Serpukhov Ordnance Depot No 45 is located on the northern edge of Serpukhov (Figure 1).

The installation covers approximately 197 acres and contains 3 administration buildings, 9 barracks, 3 probable quarters, 93 storage buildings, 30 support buildings, 2 heavy repair shops, 1 separately secured motor park, a steam

plant, 2 rail-served unloading areas (1 with a traveling overhead crane), open storage areas, and a small-arms firing range (Figures 2 and 3).

The area was covered on 7 KEYHOLE missions between July 1961 and October 1964. No change in the facilities is observed and the installation appears active on all coverage.

#### DESCRIPTION OF INSTALLATION

##### Railroad Service

The installation is served by 2 spurs from the double-tracked Moscow-Tula rail line. The spurs lead to the unloading areas.

##### Road Service

An all-weather road provides access to city streets.

##### Administration and Troop Housing Area

Area D contains 1 administration building, 3 multistory barracks, 6 barracks, 3 probable quarters, and 11 support buildings.

##### General Storage Areas

Area E1 contains 63 storage buildings, 1

steam plant, 7 support buildings, and an open storage and unloading area with a traveling overhead crane.

Area E2 contains 30 storage buildings, 2 administration buildings, and 3 support buildings.

##### Equipment Storage/Maintenance Area

Area J contains 2 monitor-roof heavy repair shops (460 by 230 feet and 300 by 180 feet), 9 support buildings, and an irregularly shaped motor park (200 by 230 feet and 100 by 80 feet).

##### Small-Arms Firing Range

Area L is a 700- by 65-foot small-arms firing range.
